DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
2. Claims 18-20 and 22 are rejected under 35 U.S.C. 103(a) as being unpatentable over Meyer et al. (US 2001/0041777) and Ewen et al. (WO 98/22486) independently.

Applicants have elected (1-(2-pyridylethyl)indenyl) chromium dichloride metallocene species previous. The cited prior art does not teach or reasonably suggest the elected species since both hetero atom containing groups, L* of Mayer and Y of Ewen respectively, carry a negative charge while the pyridyl group of (1-(2-pyridylethyl)indenyl) chromium dichloride is neutral. The search is now extended to the rest of the groups.

Meyer teaches a transition metal compound represented by formula $(L^*)_n(L)_mM(X)_y$, wherein L* is a anionic heteroatom containing ligand such as pyridine, L is a cyclopentadienyl group containing ligand such as indenyl, and L* and L can be bridged by a bridge group such as ethylene, and M is a Group 3-10 metal (page 2, [0013] to [0017]). When M is selected from Group 6 metal such as Cr, Mayer's teaching renders the instant claims obvious.

Ewen discloses a metallocene complex of formula (I), $Y_iR^iZ_{ij}MeQ_kP_1$, on page 8, when M is selected from Group 6 metal such as Cr, Ewen's teaching renders the instant claims obvious.

Allowable Subject Matter

3. Claim 21 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The cited prior art does not teach or reasonably suggest group A of formula (IIIa) is a neutral group as exemplified by formulas (IIIa) and (IIIb).

Response to Arguments

4. Applicant's arguments with respect to rejections of previous Office Action have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
